

The Assets & Opportunity Scorecard is a comprehensive look at Americans' financial security today and their opportunities to create a more prosperous future. It assesses the 50 states and the District of Columbia on 130 outcome and policy measures, which describe how well residents are faring and what states are doing to help them build and protect assets. The Scorecard enables states to benchmark their outcomes and policies against other states in five issue areas: Financial Assets & Income, Businesses & Jobs, Housing & Homeownership, Health Care, and Education.

OUTCOME MEASURES

The *Scorecard* ranks 56 outcome measures from best to worst; #1 is the most desirable, #51 is the least desirable. Data for an additional 5 measures are published but not ranked due to insufficient data at the state level. Issue area ranks are calculated by averaging the ranks of measures within the issue area; overall ranks are calculated by averaging all of the outcome measures ranks. Grades are given on a curve: states ranked 1-10 get As, ranked 11-20 get Bs, ranked 21-36 get Cs, ranked 37-47 get Ds and those ranked 48-51 get Fs.

CONNECT TO OTHERS WORKING TO IMPROVE OUTCOMES FOR FAMILIES

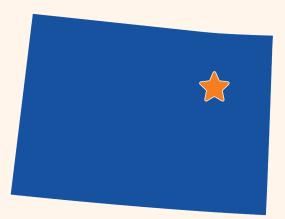

Across the country, advocates, service providers and others in the assets field are working to improve the financial security of families by strengthening policies and programs. The Assets & Opportunity Network leverages the combined experience, power and potential of these stakeholders to speed up the diffusion of innovative financial security and asset-building strategies and to create an effective constituency that can advocate for policies that expand economic opportunity.

The Network is guided by a nationally-representative Network Steering Committee and convened locally by Network State, Local and Native Leaders, many of which host statewide or local asset coalitions. More than 1,800 General Members are committed to collective action to create social change.

The Assets & Opportunity Network connects and engages the assets field to foster learning via a virtual infrastructure and in-person events and spreads knowledge of innovative and effective approaches to service delivery through learning groups, webinars, workshops and regular updates on policy and practice. To build advocacy capacity, the Network creates opportunities for members to participate in the policy process. The Network also builds the communications capacity of members to raise awareness of asset issues with the media, policymakers and allies, and expands resources available to the assets field through funder education and fundraising capacity-building for members.

ABOUT CFED

CFED empowers low- and moderate-income households to build and preserve assets by advancing policies and programs that help them achieve the American Dream, including buying a home, pursuing higher education, starting a business and saving for the future. As a leading source for data about household financial security and policy solutions, CFED understands what families need to succeed. We promote programs on the ground and invest in social enterprises that create pathways to financial security and opportunity for millions of people. Established in 1979 as the Corporation for Enterprise Development, CFED works nationally and internationally through its offices in Washington, D.C.; Durham, North Carolina, and San Francisco, California.
